BISMAT® Flash

BISMAT® Flash – even faster

The lightning-fast BISMAT® Flash clamp just got faster. A modification means that the threaded screw is easier to press through the shackle.

The BISMAT® Flash is a one-screw clamp with a quick lock. The clamp is not only fast, but even has outstanding fire-safety features. This was clear during a function test at the materials testing facility in Brunswick. A copy of the test report is available upon request.

The BISMAT® Flash is suitable for fastening metal pipes in ODs from 15 to 51 mm ($\frac{3}{8}$ to 1½"). There are two designs: with M8 nut or with M8/M10 combination nut. =Walraven/BfC=
