BISKON® Europe

Attractive price-performance ratio

Fully preassembled WC wall-mounted system

Walraven is one of the leading manufacturers of piping systems, fire protection systems and sanitary systems. The company slogan is BIS Technology by Walraven. BIS stands for Better Installation Systems. A prime example is BISKON® Europe, a complete, preassembled WC wall-mounted system.

The BISKON® Europe is the solution for anyone wanting a WC wall-mounted system that is easy, convenient and quick to install. The fully preassembled system has adjustable floor and wall brackets, plus a twin flush cistern. A 90 or 110 mm diameter flush system, a DN 90 WC connector set and a hole template are included – an very attractive price-performance ratio. And best of all: the fully preassembled frame is quick and easy to install. Corner mounting is no problem either.

The floor brackets can be adjusted to a height of 20 cm; there is a depth clearance of 34 mm. The powder-coated steel is highly corrosion resistant. The BISKON® Europe can support weights of up to 400 kg. The standard capacities for the cistern are 3 and 6 litres, which can be changed to 3.5 and 9 litres. The flush is operated from the front, and the push-plate comes in five designs: white, matt chrome, gloss chrome and two colour combinations of matt chrome (plate)/gloss chrome or gloss chrome (plate)/matt chrome.

These special features make the BISKON® Europe enormously flexible. It goes without saying that the system meets the relevant standards, and comes with a minimum 6-year guarantee. =Walraven/BfC=
